

Someone's *life* depends on *YOU*.

**A message from your Virginia Blood Services
Customer Service Advocate**

Dear Donor:

Thank you so much for taking time out of your busy schedule to donate blood. Each donation can help save the lives of three area patients. If you have any questions about your eligibility to donate, please contact me and I will be happy to assist you with any information you might need.

Occasionally, a donor may experience bruising or feel a tingling sensation during or after giving blood. These symptoms most often resolve themselves without incident; but, if you have any questions or concerns, please call my office.

Virginia Blood Services would like to make your donation process as comfortable and pleasant as possible. We appreciate your dedication to this vital community service and thank you for your future support.

Very truly yours,

Connie Bak
